CAREER OBJECTIVE:

To pursue a dynamic career objective focused on continuous upskilling in cutting-edge technologies, fostering innovation and adaptability in a rapidly evolving industry.

SKILLS:

Front-End:

- Html5, CSS, Bootstrap and jQuery.
- Less, SASS
- JavaScript with React.

Back-End:

- Nodejs, mongo DB, Camunda, gRPC, Kafka.
- Java with Spring MVC.
- Basics of shell script.
- Basic SQL queries.

Tools: Visual-studio, Eclipse, PL/SQL, Postman, Soap-UI, SourceTree for Bitbucket, Firebase, git bash, mongo DB compass, slack, Rancher and Jira.

EXPERIENCE:

Lead Developer, Tecnotree Convergence Private Ltd, Bangalore

September 2023 – Present

- I developed common components and libraries using ReactJS and Storybook for the organization. These components are utilized across all our products.
- I integrated numerous APIs and developed a UI with dynamic data, resulting in highly responsive screens.
- Engaged in re-architectural works and improved the performance of the some required APIs.
- Migrated some implementations to no-code or low-code way by using Camunda and Zeebe.

Senior Software Engineer, Tecnotree Convergence Private Ltd, Bangalore

May 2022 - August 2023

- Developed REST APIs using NodeJS and Feathers framework and used gRPC services to connect microservices.
- Mentored freshers on JavaScript, React, and NodeJS technologies and provided guidance to help them improve their technical skills.
- Reviewed code, maintained coding standards, and ensured product quality by adhering to agile methodologies.

Digital Engineer, Sella India Private Ltd, Bangalore

March 2020 - April 2022

- Worked on HomeBanking frontend and backend projects using ReactJS and Java with Spring MVC.
- Developed REST APIs that consumed SOAP and REST services.
- Debugged and fixed issues in both frontend and backend code.
- I worked on the Onboarding-OneSella web application project, where I developed many components using React and efficiently worked on it until it went live.

Fellowship Engineer, BridgeLabz Solutions, Bangalore

October 2018 - February 2019

- Worked on a web application and an Android application like Google Notes using HTML, CSS, and ReactJS with JavaScript
- Developed REST APIs using Firebase.

Part-Time Mentor, BridgeLabz Solutions, Bangalore

May 2021 - December 2021

- Mentored individuals on shell script, HTML, CSS, JavaScript, and core Java
- Developed ReactJS projects along with guiding them
