CAREER OBJECTIVE:

Building a career focused on learning new technologies, encouraging creativity, and staying flexible in a fast-changing industry.

SKILLS:

- **Front-End:** Html5, CSS, Bootstrap, CSS-In-JS, CSS Preprocessors like Less, SASS, React, Redux, MUI with JavaScript and TypeScript.
 - **Back-End:** NodeJS, MongoDB, Camunda, gRPC, Kafka, Java with Spring MVC, Basic SQL queries and shell script.
 - **Tools:** Visual-studio, Eclipse, PL/SQL, Postman, Soap-UI, SourceTree, Firebase, GitHub, MongoDB compass, Slack, Rancher and Jira
-

EXPERIENCE:

Custom Software Engineering Senior Analyst, Accenture, July 2024 – Present

Projects: “CMP” is a web portal for Transit Agencies, Metrolinx, and Accenture that configures fare rules for the Account-Based Central System (ABCS) and deploys them directly into the chosen environment. "DSS Dotcom2" is a project to maintain modules such as settings, profile, and others for Comcast Xfinity.

- Engaged in the design documentation of the CMP UI, proposed dynamic UI, and developed an effective and flexible table that supports various types of table data.
- Suggested and designed an effective UI architecture using React and other necessary libraries.
- Implemented common modules with efficient logic and accessibility features.
- Reviewed code using GitHub Copilot and provided improved coding suggestions.
- Contributed to scrum calls by providing insightful suggestions for the definition of done and during retrospective meetings.

Lead Developer, Tecnotree Convergence Private Ltd, Sept 2023 – July 2024

Projects: “Digital Resource Manager (DRM)” is a project to manage the resources like sim, msisdn and modem along with its resource life cycle.

- Integrated numerous APIs and developed a UI with dynamic data, resulting in highly responsive screens and increased performance of React application by using React memo, useCallback and code splitting.
- Engaged in re-architectural works and improved the performance of some required APIs.
- Migrated some implementations to no-code or low-code way by using Camunda and Zeebe.
- Developed common components and libraries using ReactJS with TypeScript and Storybook, which are planned to be utilized across all Tecnotree products.
- Reviewed code, maintained coding standards, and ensured product quality by adhering to agile methodologies.

Senior Software Engineer, Tecnotree Convergence Private Ltd, May 2022 - Aug 2023

- Developed REST APIs using NodeJS and Feathers framework and used gRPC services to connect microservices.
- Mentored freshers on JavaScript, React, and NodeJS technologies and provided guidance to help them improve their technical skills.

Digital Engineer, Centrico India Private Ltd, Mar 2020 - April 2022

Projects: “HomeBanking” is project that maintains customer details along with their entire banking information.

“Onboarding-OneSella” is a project, where customers open an account, apply cards to the bank through a series of specific steps.

- In the 'HomeBanking' project, I worked on both the frontend and backend using ReactJS and Java with Spring MVC.
- Developed REST APIs that consumed SOAP and REST services.
- Debugged and fixed issues in both frontend and backend code.
- Onboarding-OneSella is a web application project, that was developed from scratch by a team of 3 developers. I developed many components, configured webpack and common modules using React and worked efficiently on it until it went live.

Fellowship Engineer, BridgeLabz Solutions, October 2019 - February 2020

- Worked on a web application called “FundooNotes” like Google Notes using HTML, CSS, and ReactJS with JavaScript
- Developed REST APIs using Firebase.

CERTIFICATIONS & PROJECTS:

- “Advance certificate on Data Science” from International Institute of Information Technology, Bangalore and “MERN Stack Full Guide” course from Udemy.
- I have added my work and practices to <https://github.com/Girish-Br>.

EDUCATIONAL QUALIFICATION:

Course	Specialization	Institution	Year of Passing
BE	Information Science	Visvesvaraya Technological University	2019
PUC	PCMB	SPSM college, Davanagere	2015
SSLC	--	Sri Gurudeva High School, Kottur	2013

DECLARATION:

I declare that the above information is true to the best of my knowledge.

Place: Bangalore

Date:
